

CEZ Small Modular Reactors Program

IVO KOUKLIK
CEZ, Czech Republic
ivo.kouklik@seznam.cz

The presentation will provide an overview of the current status of the ČEZ project development, covering several aspects of the project: the need for SMRs in the Czech Republic, potential sites, design and supplier selection, project schedule, the ČEZ team, licensing and permitting, long-lead items, key design features of the Rolls-Royce SMR, and other relevant information related to ČEZ project development.
